DETAILED ACTION

Information Disclosure Statement

1. The information disclosure statement (IDS) submitted on 4/28/2006 was filed after the mailing date of the first Non-Final Rejection on 3/28/2006. The submission is in compliance with the provisions of 37 CFR 1.97. Accordingly, the information disclosure statement is being considered by the examiner.

Terminal Disclaimer

2. The terminal disclaimer filed on 8/15/2006 disclaiming the terminal portion of any patent granted on this application, which would extend beyond the expiration date of any patent granted on Application Number 10/649,578 has been reviewed and is accepted. The terminal disclaimer has been recorded.

Allowable Subject Matter

3. The following is an examiner's statement of reasons for allowance: the prior art on the record teaches an apparatus for transferring liquid ejection data comprising a bus system enhanced with local memory, an interface unit for receiving liquid ejection, a buffer unit and decoder.

However the prior art fails to teach or suggest alone or in combination the limitations of a first, second and third dedicated data bus associated with a receiving buffer with command storing and analysis, in combination with other elements

previously mentioned above. Prior art is further silent on motivation to combine such features and functionality and is therefore deemed allowable.

The examiner makes of the record the allowed application number 10/649,578 for which a terminal disclaimer was filed with respect to the current application.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
